

Web Servant Report January 6, 2013 NASCONA

Our website is doing great. Nothing has really changed in our rankings on the search engines. I do have the newsletter on line and it is 6 pages long. The next newsletter will be 4 pages until there are enough articles to do a 6 page newsletter.

We are still getting a lot of site hits which is really good. If your group needs to update meetings or group information email me and I will make the changes.

ILS,

BobT.

PS: There seemed to be a question or a statement made about the Traditions being up for interpretation. NOT! What this says is the spiritual principles in the traditions being up for interpretation not the traditions.

The Twelve Traditions

The traditions portion of *It Works: How and Why* serves as a resource for NA groups and the individual member. The book seeks to explore the spiritual principles within the traditions, engage members with the spirit—not the law—of the traditions, and provide a basis for thought and discussion about the traditions. This portion of the book is not meant to fulfill every need for every group or every member; rather, it is to be a book that will generate discussion and allow for local interpretation of the practical application of the principles contained in the traditions.
