

Web Servant Report NASCONA – April 6, 2014

As usual our website is doing well. We received 2 emails this month and as usual I forwarded them to everyone.

When I get fliers I post them on our website. Most of them I have to rework do to their size. Large files take forever to load on a cable connection and there are still members who use dial up which takes even longer. The maximum size file I can put on our website is 10 MB. Be care what programs you use when sending out reports and fliers as some members may not be able to open them because they do not have that program in their computer. PDF is a good program to convert your reports and fliers into as everyone can open them.

Our web rankings are still good as we are either on the second or third page under Texas Narcotics Anonymous. I got rid of a snooping search engine and we are still on the second page of their search engine.

Now this brings me to another point. If anyone wants to take over as web servant, be my guest, I can show you how to use WordPress in a couple of hours. As some of you know I had to put my mom back in the hospital and my health is bad. I may be hospitalized myself for a few health problems I have going on. After I get fixed I will be taking off for a couple of weeks for some much needed R&R to visit with my friends and sponsor out of town. I will have my lap top so I will be able to do what I need to do. My email address is bob@briefcasebob.com

In Selfless Service,

Bob T.
