

Webservant Report NASCONA January 5, 2014

As usual our web site is doing great and we are still getting a lot of traffic. I don't know if I will be able to attend the ASC today. As some of you may know my mom has been in an ICU unit and on life support for the last 18 days. We still have hope as she is alert now. This has affected every area of my life. I have spent a lot of time on the phone with my sponsor as it is really hard for me to go anywhere for very long unless it is to the hospital.

I can still maintain the website as I do this from home. What I need is for everyone to email me changes or additions that need to be made to the website.

I do want to remind everyone that this is our website and I take direction from this service body. What I am saying is that if you want something on the website and/or your group page, tell me and I will do it.

In Loving & Selfless Service,

Bob T.
