

Web Servant Report NASCONA for June, 2015

Our web site is doing great and we are still getting a lot of traffic. To my knowledge our site is up to date and there are no dead links. To date we have had 259,407 hits on our website since it was put on line as of July 3, 2015.

We are doing well on the search engines. Two of our groups are listed on the images section of Google search for Texas. One group is on the first page of the world search. Congratulations "Better Late Than Never Group". If your group wants to put a graphic on your group page I will place it on your page.

I haven't done much this past month on my computer as it got really sick. It had a really bad ass virus and spy ware attack. I have never had anything this intense on my system. What is really bad is I have no idea how I got it. However, I have finally gotten rid of it and our web site is safe. During this time I didn't respond to many emails.

I understand that the next ASC will be in Conroe on July 12. I will be in San Antonio for a couple of weeks for treatments for me as well as helping another recovering addict after her TACE chemo treatment. As for me, I have 2 doctors in San Antonio and 2 doctors here who have made the decision to do whatever it takes to get me well. I am getting better, but I still have a long way to go. My goal is to recover from the medical problems and to get back in the **NA Service Structure**.

In Selfless Service,

Briefcase Bob T.
