

Notes for the May 2016 RSC

These are the rough notes for the RSC that occurred at Hugs not Drugs, 2101 W. 34th St., Houston, TX. on May 14, 2016 which as follows:

There was a nomination for the open PR position and she was shot down. I'm not going into the character references or the interesting references that were used. I'll basically say it was brutal...

The IRS reimbursement issues has failed...

Liability insurance for the region. All the groups and meetings can be covered. James Mc. is looking into this further...

Kenny for AAI. Basically AAI is getting a bad name. Doubling of services and controversy is crippling the ability to carry the message. Trying to find a solution to make to work again. Kenny was nominated to take over the AAI and to take HASO AAI and merge into TBRNA AAI to make the program work again. Details are to be ironed out...He later resigned after about a week later for unknown reasons. It's vague but I think it might have something to do with the "Baby Blues"...

Consensus for sending \$14K to world after TBRCNA 16 close from the convention proceedings...

Policy change: Under Voting and Elections in policy we change CAC Facilitator to CAC representative.

Explore Service resumes on record for TBRNA for service opportunities for the open positions for future consideration.

Recommend that Texas State Convention use Quickbooks as the accounting software

There is still various openings at the Regional level for service positions at Region and on the Convention. Be a part of and share your experience, strength, and hope...

Next RSC: Aug 13 2016, 9:00am to 5:00pm at A Recovery Place 10929 Nacogdoches St., San Antonio, Texas...

I.L.S.,

Stewart W., The Only RCM.
