

Web Servant Report – NASCONA – September, 2016

Good morning everyone, as for the website it is doing great. I have kept it up to date when the updates have been forwarded to me.

Now I need to inform you that you need to get a web servant. I have kept the site really simple as I know how hard it is to get someone to take over a website. Our site is very simple to work with. The server has been renewed for 3 years as of a few months ago. Our web address needs to be renewed every year. There is a section in the Public Relations hand book that needs to be followed. I will need to set the new web servant up in the server (Blue Host). Whomever you choose will need to come to my house so I can show you how to operate the website and set them up a pass word with Blue Host. **I do not email pass words.** The website can be transferred to any server or if the area wants I can pull it.

In the very near future I will be taking a journey with my best friend to visit people and I am not going to take my computer. I am going to spend time with family and friends

In the event of my death if there isn't a web servant the site will be pulled off the internet. I have seen NA websites sit for years that no one could access or update. Ours will not be that way. My oldest son Jason has been given directions on what to do in the event of my death. Any questions, contact me at 281-719-8644.

In Selfless Service for 20 Years,

Briefcase Bob T.
