

## **RCM 2 Report**

I'm an addict named Brian.

I haven't received a confirmation of an extension proposed to delay the CAR Talley April 7<sup>th</sup> the deadline was as mentioned March 31<sup>st</sup> and the RD's will turn in the results April 15<sup>th</sup>.

The next RSC is May 8<sup>th</sup> and I suspect it will be a virtual format.

It is scheduled to be hosted by the Tri county area, but I have not received a confirmation yet of a location.

There should be no travel expenses to accrue since this is relatively local either way.

I understand we have the Houston Northside Area Virtual meetings going on and I am grateful to be a part of this the meetings are going strong and getting better with each meeting.

I would like to be able to relay to our region the following items.

1. How many groups in our Area have transitioned to online meetings since the COVID-19 outbreak?
2. What measures have been taken to have such groups remain fully self-supporting?
3. How many groups might not be meeting at all that could benefit by hosting virtually?
4. Which groups are not meeting regularly by the posted online schedule?
5. Have groups not currently holding meetings engaged with the Helpline to redirect newcomers?
6. How are we communicating to the newcomer as an Area with such changes?

I will be in attendance today and I look forward to seeing you all there.
